Deeksha Sharma

Backend Developer

Enthusiastic and self-motivated Backend Developer with 4+ years of experience, valued for driving high-performance accessible web experiences. I excel at development quality, user-friendly, and scalable products regardless of the technology stack. Eager to join WebHouse to bring my top-class backend development skills.

Experience

I've worked on a handful of web projects over the years, some of which were for the following organizations:

Techmind Softwares — Sr. Backend Developer *Jan 2021 - Present*

Roles & Responsibilities

- Develop custom themes in Wordpress for clients, tailoring them to their specific requirements and developement preferences.
- Worked on multiple 3rd party APIs integrtrions which includes salesforce, Jforce, Mailchimp, Amelia, Sumo Subscriptions, ebay, Visa, Namecheap etc.
- Created APIs in laravel for React App.
- Prioritize web development projects, set timelines, and assign tasks to team members.
- Write or review code for various applications, ensuring adherence to coding standards and best practices.
- Run functionality testing and debug code to ensure optimal performance and eliminate any bugs or issues.
- Developed web applications using Wordpress, HTML, CSS, JavaScript, PHP, creating seamless and engaging user experiences across devices.
- Proactively identify opportunities for process improvement and propose innovative solutions to optimize efficiency and productivity.
- Actively participate in code reviews and provide constructive feedback to improve code quality and maintainability.
- Mentor junior team members, sharing knowledge and best practices to foster their professional growth.

SB-Innovations — Backend Developer *Jul 2019 - Jan 2021*

Roles & Responsibilities

- Closely cooperate with the web developement team to build WordPress websites, ensuring seamless integration of design and functionality.
- Develop landing page functionalities and features, optimizing user experience and driving conversions.
- Address any bugs that arise during the development process, working collaboratively to find effective solutions.
- Maintain and enhance the current website, continuously adding new features to improve user engagement and satisfaction.
- Stay updated on the latest WordPress developments, plugins, and technologies, incorporating them into projects to enhance website functionality and user experience.
- Assist in content management, including adding and updating website content, optimizing it for search engines, and ensuring its accuracy and relevance.

Projects
